# EVENT AGENDA

## 1st CLCP in the Americas Working Group Meeting

13th-14th May 2014

Organization of  
American States

United States Government

Closed Looped  
Cycle Production  
in the Americas

WASHINGTON D.C.

Welcome to the [1st CLCP in the Americas Work Group Meeting](#),

The Closed Looped Cycle Production in the Americas (CLCPA) Program is an initiative of the Department of Sustainable Development (DSD) of the Executive Secretariat for Integral Development (SEDI) of the Organization of American States (OAS), which aims to introduce and showcase the viability and applicability of Closed Looped Cycle Production (CLCP) design and manufacturing methodologies in the industrial sector to increase the productivity, competitiveness and sustainability of businesses.

Colombia, Panama, and Trinidad & Tobago are the participating countries in the current phase of the CLCPA Program 2013-2015. The CLCPA Program has strategic alliances with partners that provide technical assistance and allow contextualizing the program according to the needs of each country. During the 1st CLCP in the Americas Working Group Meeting, the OAS/DSD CLCPA Program team together with its consortium partners will confirm specific roles, tasks, and responsibilities during the morning session on May 13 and you will have the opportunity to participate in the informative session of the Program on May 14th.

We hope you join this inspiring event!
